### ALL THE POTENTIAL OF 2D/3D

NewTom GO is the user-friendly, versatile 2D/3D device designed by NewTom, the first company in the world to apply 3D CBCT technology to the dental-maxillofacial field.

### SICAT SOFTWARE

SICAT software accepts any 3D CBCT, and any Digital Impression format combination. This integration is used to plan, and order the guide or desired device. It creates the perfect digital flow.
